

Dear Future 3<sup>rd</sup> Graders,

In this PDF you will see your Summer Learning Assignments. These are all skills that were taught in second grade and completing them will better prepare you for third grade. Below you will see a pacing guide to help to keep you on track all summer. The goal is to complete a little bit each week during the month so that it does not all have to be completed at once. These assignments are strongly suggested, but not required. The assignments can be completed on any paper that you have at home. Completing your summer work will help to earn house points for your team to begin the year! We hope you have a safe and enjoyable summer and we will see you in third grade!
